

Diamond Range Composite Doors

Safeddoors
by Permadoor

Superior energy efficiency and minimal maintenance. Introducing the Safedoor's Diamond Range

Our Diamond Range of composite doors are manufactured with a high insulation foam core, which delivers outstanding thermal performance, to keep the heat in and the cold out.

Durable glass reinforced plastic (GRP) skins provide a rich, authentic timber grain in a range of traditional and contemporary colours that are highly resistant to denting, peeling, flaking or fading.

High security locking and reinforced PVC-U frame comes as standard to protect you, your family and your home.

The Diamond Door Difference

Choice of popular traditional and contemporary styles

Range of attractive colour options to enhance any property

Encapsulated edge banding around the perimeter of the door for a neat, waterproof finish

High insulation foam core, for superior energy efficiency

Authentic timber grained GRP skins

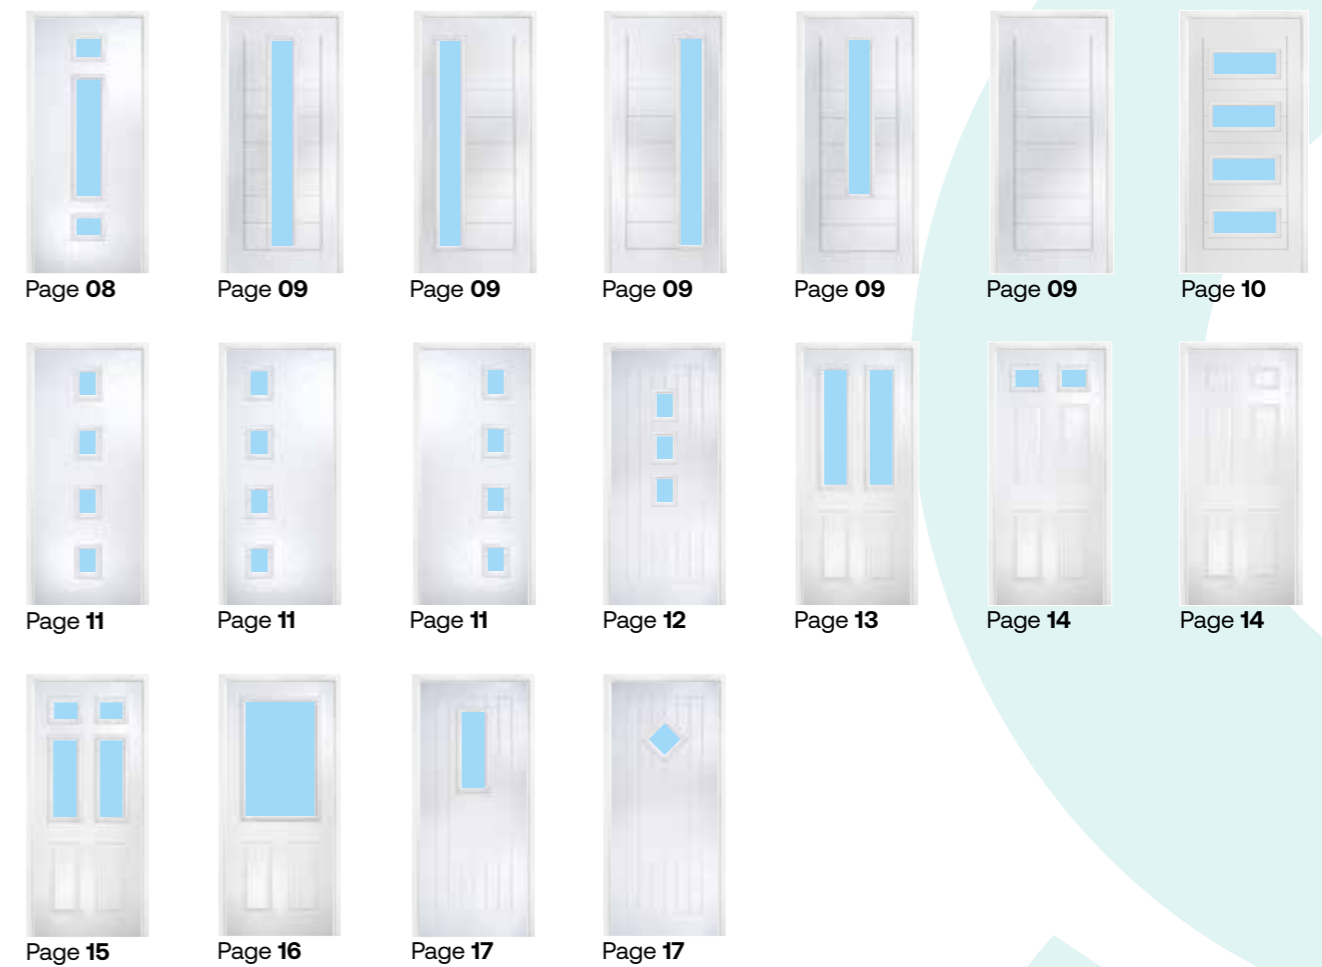

Available with white internal face only

Select a style

Colour Options

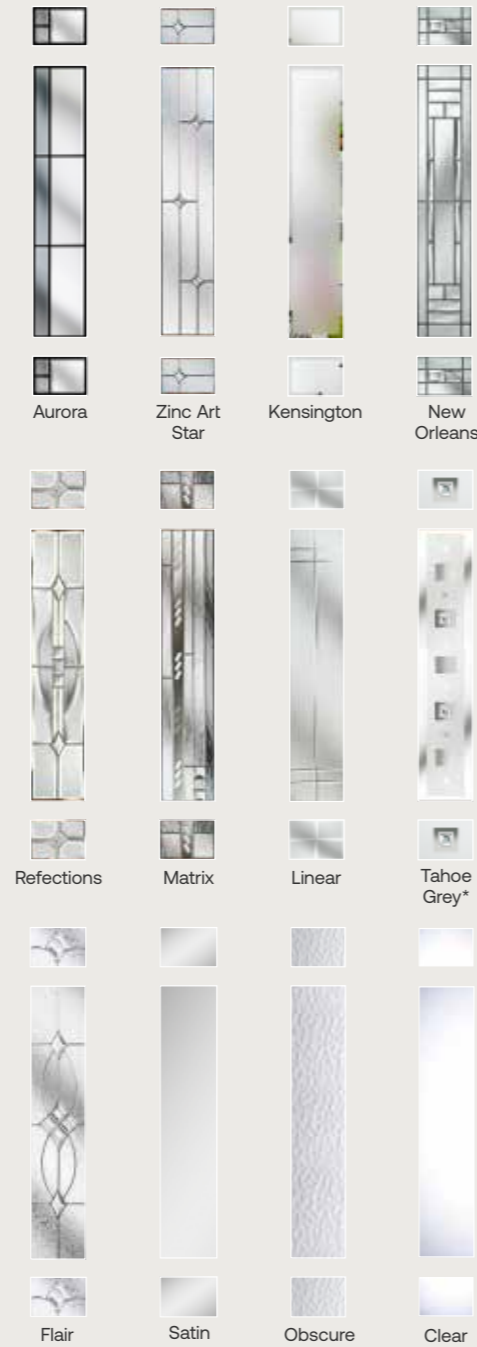

Our Diamond range of doors offer a large selection of colour options. Our most popular colours are available from our standard range, or alternatively if you are looking for something a bit different, there are some exquisite colours in our non standard range that will make your property stand out.
